

Precision starts here: high-quality Proteinase K for optimal template preparation

Increase the yield of target nucleic acids

rigorously tested for the absence of nucleases

Made for healthcare applications

Consistency for peace of mind from idea to delivery

Unlock the secrets of nucleic acids with certainty

Solid know-how basis

Over 20 years

experience as a leading Proteinase K supplier to healthcare industry

Build on tons of experience

> 1000 kg

delivered Proteinase K to leading healthcare manufacturers

Flexible when it matters

500%

increased output of Proteinase K solution during the COVID-19 pandemic

Stable when it counts

Long-term stability at

room temperature
